DETAILED ACTION***Allowable Subject Matter***

1. Claims 1-19 are allowed.
2. The following is an examiner's statement of reasons for allowance.

Applicant failed to provide an explicit definition of a routing processor. Applicant presented intrinsic evidence within the specification that a routing processor was limited to hardware embodiments. Specification, page 1, lines 11-18. Specification, page 1, lines 27-29. Specification, page 2, lines 12-16. Intrinsic evidence further existed within the claims supporting this analysis. Claims 1, 9, 14: A set of routing processors disposed on a single card. Claims 4, 11, 19: Each routing processor includes memory. Therefore, one of ordinary skill in the art would interpret Applicant's claims as being limited to hardware embodiments of routing processors.

Applicant has limited the invention to a single hardware card containing two routing processors. Each routing processor is limited exclusively to a single routing protocol. One of ordinary skill in the art interprets a routing processors exclusively associated with a routing protocol as a routing processor that can only process the specific routing protocol and cannot be altered to accommodate another routing protocol. Although Applicant's specification supports the use of five separate routing processors for five distinct routing protocols (Figure 4), Applicant has limited the invention to two routing processors on a single hardware card. Applicant also claimed an additional routing table manager on a third processor, located upon said single hardware card.

The exclusive, non-interchangeable use of a network protocol on a network routing processor, and the placement of exactly two said separate hardware network routing processors on a single hardware card, is not taught in the prior art. The addition of a separate hardware routing table manager processors located upon said hardware card with the additional two separate hardware routing processors is also distinguished over the prior art.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
